SUMMARY

I am a software engineer with a strong background in both front-end and back-end development. My ability to thrive in collaborative environments and focus on quality results has led to successful projects, including a digital marketing campaign that significantly boosted signups. I am eager to bring my skills to Dream Version and continue my growth as a developer.

EXPERIENCE

Web Developer

Crownnygold

📅 08/2019 - 01/1970   📍 Remote

A web development company focused on delivering high-quality digital solutions.

- Coached 4 junior designers in ARIA and A11y accessibility standards.
- Created and oversaw wireframe designs from client requests.
- Spearheaded transition from firebase to AWS, saving company $3,700+ monthly and increasing load speeds by an average of 38%.
- Developed documentation to teach new team members company standards and best practices in React.js and Node.js.
- Addressed complex issues with real-time lead prioritization using Websocket connectivity.

Full-Stack Developer

Nethinxsolutions

📅 01/2019 - 01/2024   📍 Remote

A remote-based technology solutions provider specializing in web applications.

- Designed and implemented responsive user interfaces using React, improving usability by 25%.
- Developed backend APIs with Node.js and Express, handling over 10,000 concurrent users.
- Optimized database queries in PostgreSQL, reducing query execution time by 30%.

Backend Developer

WebsiteDesigner

📅 01/2020 - 01/2024   📍 Remote

A company focused on web design and development services.

- Built scalable RESTful APIs for an e-commerce platform using Python and Django.
- Managed and maintained cloud-based databases in MongoDB and AWS RDS.
- Improved application performance by implementing caching strategies with Redis.

EDUCATION

B.S.

University of Crawford

📅 09/2021 - 01/1970   📍 Nigeria
